

ACADEMIC ACTIVITIES

“Develop a passion for learning. If you do, you will never cease to grow.” - Anthony J. D'Angelo

The CBSE affiliation provides a mandate to offer a competitive curriculum to the students that provides them with opportunity to explore the world of professional and specialized institutions across the country. This syllabus beautifully prepares the students for upgrading their fundamentals in the Primary and Middle levels. In the Senior School, the students are exposed to board exams, first in class X and later in class XII. After class X, the students are allowed to choose different streams in accordance with their interest and abilities.

The School offers 3 streams from the year 2022

Sociology

LABORATORIES (SCIENCE, MATHS, ACTIVITY & COMPUTER)

"Children love to wonder, and that is the seed of science"

Our science labs include all possible facilities, so that the children can carry out experiments to develop scientific learning, cultivate deeper and profound interest in the field. Science laboratories allow students to utilize the data gathered from the books, as well from the material world, for developing pragmatic logic and rationale. Information and communication technology has shrunk the world. Today, information is available at the finger-tips.

MJIS integrate **ICT** into the curriculum, seamlessly through the computer labs that have the latest hardware & software with high-speed internet connectivity.

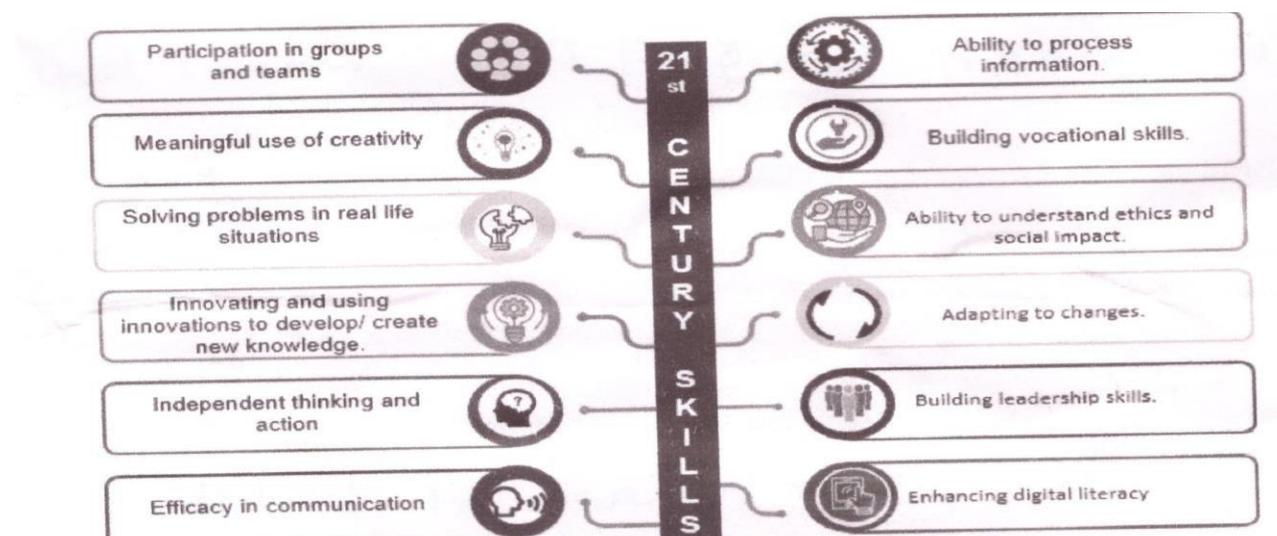

Co-Curricular Activities:-

At MJIS, we believe that talent can be honed best at an early age. Our students are encouraged to participate in onstage performances to build their confidence. Our children are brimming with talent and with us they have the perfect platform to unleash their potential. Round the year we conduct many special exams or competitions. These competitions/exams give an added advantage to higher studies. The school notice boards witness various cultural programs round the year which have a huge scope of discovering the talents that set new standards every year.

PHOTOS

MI International School provides a wide range of Co-Curricular Activities to its students, through which students get a conducive environment to, build on the curiosity for their surroundings as well as given topics. We create every activity for reason of quality to be developed in our students.

learning how to learn... The goal will be to create a holistic and well-rounded individual equipped with key 21st-century skills.

The **Art Integration Program** at School offers a wide range of activities and opportunities to develop skills of debate, art and craft skits, poster making, rangoli making, dancing, singing and a lot more.
